FROM: Edward T. Foote, II *ETF*

SUBJECT: Faculty Senate Recommendation #81019(B)

I approve this recommendation, effective beginning with the spring semester of the 1982-1983 academic year:

"A student is in good academic standing only if his cumulative grade point average is higher than that established for the determination of academic probation.

A student must be in good academic standing in order to represent the University in extracurricular activities."\*

My reasons are summarized briefly below.

I believe this action to be important as clarification, but also as emphasis of a fundamentally important principle. The policy concerning eligibility for participation in demanding, extracurricular activities by students representing the University apparently has not been fully articulated. In practice, I am informed, our students have been allowed to participate in non-academic pursuits sponsored by the University, regardless of their academic jeopardy.

\* I understand "represent" to mean any student activity undertaken in the name of and approved by the University which requires a significant time commitment. This definition clearly includes any intercollegiate competition or representation. It may include other extracurricular activities, to be determined by the Provost as may be appropriate.
