CAPSULE: Faculty Senate Legislation #93012(B) -
Mid-semester Academic Deficiency Report

This legislation is an amendment to Faculty Senate Legislation #73004(B). The rationale for this legislation is to give students more than a week to drop a course after being informed of academic deficiency. Presently they are sometimes informed of their deficiency after the drop date has passed, since the drop date (end of the seventh week) is nearly the same as the deficiency reporting date (by the seventh week).
