Subject: Faculty Senate Legislation #2019-45(B) – Creation of a Master of Science (MS) in Sustainable Business and Accelerated Master of Business Administration (MBA) Dual Degree Program – Herbert Business School

The Faculty Senate, at its January 29, 2020 meeting, had no objections to the approval of the Herbert Business School's creation of a MS in Sustainable Business and Accelerated MBA dual degree program. The proposed dual degree program involves two existing programs.

The proposed dual degree program will require successful completion of 62 credit hours. The current MS in Sustainable Business program requires 32 credit hours and the Accelerated MBA requires 35. In the proposed curriculum, students would complete the full 32 credit hours for the MS program and then only 30 credit hours in the Accelerated MBA program because two course (BSL 690 and BUS 628, 5 credits) required for the MBA program are also included in the MS curriculum.

The proposal is enclosed for your reference.

This legislation is now forwarded to you for your action.

FROM: Patricia Sanchez Abril, J.D., Vice Dean, Graduate Business Education

Subject: Master of Science in Sustainable Business and Accelerated MBA

Date: January 15, 2020

Proposal:

The Miami Herbert Business School is proposing to offer a dual Master of Science in Sustainable Business and Accelerated MBA degree program allowing students to earn both a specialized Master's and MBA. Students will complete the two degrees in sequence –first, Master of Science in Sustainable Business, Accelerated MBA second. Both programs currently exist. This proposal is for the purpose of officially joining them as a dual degree. As such, the dual degree is designed for students with an interest in broadening their business education beyond the specialized scope of their first Master's program.

Reasoning:

Today's employers demand agile-minded leaders with both true expertise and general business intelligence. Most MBA programs offer a year of generalist core courses before allowing students to focus on specialized business areas, such as Sustainable Business. We understand that today's professional is eager to save time, maximize exposure, and dig deeper. This dual degree program will provide a robust framework for acquiring both depth and breadth in business education.

Applications Process:

Students can apply for the dual degree upon initializing their application. Students may also consider applying for the Accelerated MBA while they are enrolled in the Master of Science in Sustainable Business.

Resource Implications: None

RE: New MS in Sustainable Business/Accelerated MBA Dual Degree Program

On October 4, 2019, the Miami Business School notified my office of its intent to offer a new dual degree program effective Fall 2020: Master of Science (MS) in Sustainable Business and the Accelerated Master of Business Administration (MBA). The proposed dual degree program involves two existing programs (academic plan codes: SUSBU_MS and BUSAE_MBA). The proposed program will allow students to complete both degrees in a sequential timeline and provide graduates with greater preparation to pursue careers in business.

The proposed dual degree program will require successful completion of 62 credit hours. The current MS in Sustainable Business program requires 32 credit hours and the Accelerated MBA requires 35. In the proposed curriculum, students would complete the full 32 credit hours for the MS program and then only 30 credit hours in the Accelerated MBA program because two courses (BSL 690 and BUS 628, 5 credits) required for the MBA program are also included in the MS curriculum.

The proposed new program does not "represent a significant departure, either in content or method of delivery" from what we are currently approved by SACSCOC to offer because both programs are currently approved and the program length meets the minimum of 30 credit hours for each degree. SACSCOC only requires notification of program changes that represent a significant departure from our current programs. Therefore, no notification or approval is required for this change.

Please contact me if you have any questions at pattymurphy@miami.edu or (305) 284-3276.
