

**MEMORANDUM**

**To:** Julio Frenk  
University President

**From:** Linda L. Neider  
Chair, Faculty Senate

**Date:** March 30, 2020

**Subject:** Faculty Senate Legislation #2019-69(B) – Curriculum Change to the Undergraduate Minor in Health Management and Policy (HMP) – Miami Herbert Business School

\*\*\*\*\*

The Faculty Senate, at its March 25, 2020 meeting, had no objections to the approval of the Miami Herbert Business School change to the Health Management and Policy minor curriculum. The new changes will consist of three adjustments to the curriculum: 1) a new course (HMP 321, to be cross listed with SOC 321, 2) removal of SOC 351 as an elective option from minor curriculum, and 3) change of old HSM courses to the new subject code, HMP.

The proposal is enclosed for your reference.

This legislation is now forwarded to you for your action.

### Program Overview

#### Minor Area of Specialization in Health Management and Policy (People & Society)

The purpose of the minor in Health Management and Policy is to provide the student with a basic understanding of the organizational, management, economic, and financial structure, as well as the legal, ethical, and governmental policy of the health care industry. Appropriate candidates for this minor will include students interested in: exploring the health care sector; working in the legal, management, or policy making aspects of the health care sector; or those wanting to have an augmentation to their health sciences, nursing, pre-med, pre-law or pre-MBA/MPA studies.

Miami Business School students, as well as students in the other schools and colleges of the University of Miami, may pursue the minor in Health Management and Policy by officially declaring the minor at their home school or college and completing the coursework specified below. Interested *non-business* students, before declaring the minor, should consult with an academic advisor *in the School or College of their degree/major* to determine if the minor in Health Management and Policy is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Department of Health Management and Policy is necessary.

### Curriculum Requirements

## Curriculum Requirements

The 12-credit-hour minor in Health Management and Policy consists of four courses--- two required and two minor choice courses---as indicated below (all courses must be taken within the current pre-requisite structure).

Miami Business School students should take the following for the Health Management and Policy Minor:

#### Course List

Code	Title	Credit Hours
Foundational Course		
<del>HSM 270</del>	<del>Course HSM 270 Not Found</del> 1	<del>0-3</del>

<u>SOC 321</u>	<del>Applied Health Policy</del>	
<u>SOC 351</u>	<del>Business and Society</del>	

Total Credit Hours 12

1 HMP 270/MGT 270, foundational for the Health Management and Policy minor, is a pre-requisite for all other HMP courses.

2 The pre-requisites for HMP 350 are HMP 270/MGT 270, ECO 211, and ECO 212. No student should take both ECO 386 and HMP 320 or HMP 350.

3 BSL 460 and MKT 388 are intended for Business students who have declared the HMP minor and have the BSL 212 and MKT 201 or MKT 301 pre-requisites.

\* **Note:** All specific coursework for the minor in Health Management and Policy must be completed with a grade of "C" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization. No one course may count toward more than one major or minor area of specialization.

Non-Business students should take the following courses for the Health Management and Policy Minor:

**The 12-credit-hour minor in Health Management and Policy consists of four courses--- two required and two minor choice courses---as indicated below (all courses must be taken within the current pre-requisite structure).**

Total Credit Hours		12

1 HMP 270, foundational for the Health Management and Policy minor, is a pre-requisite for all other HMP courses.

2 Non-business who do not meet the pre-requisites to take HMP 350 should take HMP 320 instead. No student should take both ECO 386 and HMP 320 or HMP 350.

\* **Note:** All specific coursework for the minor in Health Management and Policy must be completed with a grade of "C" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization. No one course may count toward more than one major or minor area of specialization.

## Rationale

### Rationale

We created a new course, HMP 321 Applied Health Policy for Business, to be cross-listed with SOC 321 Applied Health Policy. This new course would be specifically for use as an elective in the Health Management Policy minor. Students should take either HMP 321 or SOC 321, not both (as they are the same class).

We are removing SOC 351 Business and Society as an elective option from the minor curriculum (for business and for non-business students). SOC 351 is no longer an active class being taught by HMP faculty. As such, we ask that it be removed from the list of electives for the minor.

**Patty Murphy (pxm491) (02/17/20 12:21 pm):** The proposed change does not represent a significant departure from currently approved programs. Therefore, notification to or approval from SACSCOC is not required.

**David Chin (dchin1) (02/26/20 3:44 pm):** On 2/26/20 the University Curriculum Committee voted to support this proposal as submitted.

# Memo

**To:** School Council  
Miami Herbert Business School  
For December 4, 2019 Meeting

**From:** Steven G. Ullmann  
Professor and Chair  
Department of Health Management and Policy

**Date:** December 10, 2019

**Re:** Adjustments to HMP Undergraduate Curriculum

---

The following proposal was unanimously approved by the Undergraduate Business Education Committee on December 4, 2019 and has been approved by the Department of Health Management & Policy faculty as well as the Sociology Department leadership (see attached documentation).

This proposal contains three adjustments to the undergraduate Health Management and Policy major and minor (B.B.A, B.S.B.A and Minor) and, correspondingly, the academic bulletin.

1. HMP 321 – New course to cross-listed with SOC 321
2. HMP 350 – add ECO 213 as a prerequisite
3. Remove SOC 351 as an elective option from major and minor curriculum

## **1. New course: HMP 321 to cross-list with SOC 321 Applied Health Policy for Business**

- We propose the creation of a new course, HMP 321 Applied Health Policy for Business, to be cross-listed with SOC 321, Applied Health Policy. This new course would be specifically for use as an elective in the Health Management Policy major and minor.
- HMP 321 should also be added to the academic bulletin as an elective for both the undergraduate major and minor as “SOC 321 or HMP 321;” students should take either SOC 321 or HMP 321, and not both (as they are the same class).
- HMP 321 should have one prerequisite of HMP or MGT 270.

## **2. Modify Prerequisites for HMP 350 Production and Consumption of Health and Health Care**

- Modify prerequisite(s) to include ECO 213 which can be used in lieu of ECO 211 and ECO 212
- Remove current prerequisites: HMP 270 or MGT 270 & ECO 211 & ECO 212.
- Add prerequisites: HMP 270 or MGT 270 & ECO 213 or ECO 211 & ECO 212 (Note: ECO 213 is an appropriate substitute for ECO 211 AND 212 for purposes of prerequisites.)

**3. Remove SOC 351 as an elective option from major and minor curriculum (minor for business students and minor for non-business students)**

- SOC 351 is no longer an active class being taught by HMP faculty. As such, we ask that it be removed from the list of electives for the B.B.A, B.S.B.A and Minor in Health Management and Policy.

## **MEMORANDUM**

TO: Faculty Senate

FROM: Mrs. Blanca Ripoll  
Secretary of the Faculty School Council  
Miami Business School

DATE: January 29, 2020

SUBJECT: Unanimous approval of the Curriculum Changes for the BBA, BSBA, Minor for Business and Minor for non-Business Health Management and Policy Curriculum Changes

---

On Friday, December 20, 2019, the School Council of the Miami Herbert Business School (MHBS) unanimously approved the proposal for curriculum changes for the Health Management and Policy BBA, BSBA, Minor for Business and Minor for non-Business students.

cc: Dr. S. Ullmann, Chair, Health Management and Policy Department

January 23, 2020

Faculty Senate  
University of Miami  
Coral Gables, FL

Dear Faculty Senate:

I write to extend my enthusiastic support of the proposed changes in course requirements in the Department of Health Management and Policy for the BBA, BSBA, Minor for Business students, and minor for non-BU students. The proposal was unanimously supported by the Department of Health Management and Policy faculty, and the Undergraduate Business Education Committee. It was read in School Council and was approved by that body on December 19, 2019.

Thank you for your support and collaboration. I look forward to working with the Faculty Senate on other matters in the future.

Sincerely,

A handwritten signature in blue ink that reads 'John Quelch'. The signature is written in a cursive style with a long, sweeping underline.

John Quelch

Hi Michael and Maria,  
It really shouldn't make a difference to students receiving credit toward the Sociology and Criminology majors and minors if the cross-listed course to SOC 321 Applied Health Policy is now HMP 321, so I also feel that change will be fine.  
Wishing you both a Happy Thanksgiving as well.

Dear Maria and Jan,

I hope you are both well and looking forward to the holiday break. As you know, SOC 321 (Applied Health Policy) and HMP 498 (Special Topics) are cross-listed for the Spring 2020 semester. Enrollment is high and the class is almost full. I believe this is a quintessential win-win for both departments. Going forward, the undergraduate business office and school council in the business school would like us to have a permanent course number rather than using 498 indefinitely, which is typically used for a one-and-done course. Is it OK with both of you for us to use HMP 321 to cross-list with SOC 321 starting in the Spring 2021 semester? Everything else will remain the same. I look forward to hearing back from you.

Happy Thanksgiving!

Best,

Michael

E-mail: mfrench@miami.edu

**Prerequisites**

There are no formal prerequisites for this class. However, training and experience in research methods and statistics/econometrics is highly encouraged. Please check with the professor if you have any questions or concerns.

**Course Description**

This course examines the role of people and institutions in health promotion, risky behaviors, health care delivery, and health insurance. We will explore the theoretical and practical reasons for intervention in health-related decisions and health care markets, the related empirical evidence, and the effects of these interventions on health outcomes and social welfare. Students will understand how and why government and society in general attempts to influence health-related behaviors and health insurance markets, and the resulting effects on individuals' choices, expenditures, health outcomes, and overall quality of life.

**Textbook**

There is no required textbook for this course. The required readings are all journal articles, which are available on the journals' websites and are accessible for no charge through the University of Miami library (search for the journal name at <http://library.miami.edu/articles/> and then find the article within the journal database). These articles are also commonly available through an online search engine if accessed through the University of Miami's network. The professor will distribute via Blackboard or email any unpublished working papers and manuscripts.

Some of the topics will be introduced using selected material from: *Health Policy Issues: An Economic Perspective*, by Paul J. Feldstein, Health Administration Press, Seventh Edition, 2019. This text is not required for the course, but copies will be available for your access in the reserve room of Richter Library if you are interested in additional background reading.

## Course Outline

Students must complete all required readings prior to class and come prepared to discuss/debate the articles and ask questions about the material. Repeated observations that you have not completed the readings and did not prepare for class properly will result in a lower grade for class participation. The syllabus is not a fixed document and is subject to revisions. Health policy is a dynamic and fluid area so I will incorporate new topics and related articles when timely and appropriate.

*Guide for the structure of class each week:* We will typically cover one topical area per week. On Tuesday, I will briefly introduce and motivate the topic. We will then discuss/debate the first assigned reading. On Thursday, we will discuss/debate the second assigned reading followed by a 15-minute discussion of related current events. To prepare for the discussion of current events, each student will select and post (Discussion Board on Blackboard) one news article related to the topic of the week and 2-4 students will be randomly selected to lead the class discussion emphasizing how their news articles relate to the policy concepts discussed that week. Keep in mind that this is a rough outline for each class and it is subject to change depending on the material and discussion. In the course schedule that follows, the *italicized* articles will be discussed each week and the other articles are included for reference purposes and supplementary readings.

Week 1:	1/15 & 1/17	<b>Course Overview &amp; Summary of Health Care Markets, Health Insurance, and Policy Analysis; Statistical Primer</b>

### **Course Requirements and Grading**

#### *Determination of grades:*

Final Report	35%
Mid-Term Exam	25%
Class Participation, Article Summaries, and News Articles (Current Events)	40%

*Final Report:* The final report will be due at 11:00am on April 30<sup>th</sup>. Late submissions are strongly discouraged and will be assessed a penalty of 2 points per hour up to a maximum of 10 points per day. This comprehensive report will be an analysis of a health (care) policy of your choice that is related to risky health behaviors, welfare-enhancing health behaviors, health care choices, health insurance, etc. The report should be 10 double-spaced pages, not including title page, references (*Chicago Style* preferred; [http://www.chicagomanualofstyle.org/tools\\_citationguide.html](http://www.chicagomanualofstyle.org/tools_citationguide.html)), tables, or figures. A one-page single-spaced proposal (detailed abstract) of your report topic will be due no later than the beginning of class on March 7<sup>th</sup>. Late proposals will decrease your final report grade and will not be accepted after March 21<sup>st</sup>. Final reports must be well written, well organized, and free of grammatical mistakes and typos. Students should rely on journal articles, textbooks, newspaper/magazine articles, and other reference materials, but no assistance is permitted from classmates, instructors, friends, etc. In addition, students are encouraged to utilize the Writing Center and submit their draft reports through SafeAssign, which will detect possible plagiarism. Final reports will be submitted to me through Blackboard via SafeAssign to ensure that any previous issues are resolved.

*Mid-Term Exam:* The mid-term exam will occur on March 28<sup>th</sup>. It will contain 25 multiple choice and true/false questions, which will be completed in 30 minutes. Every student must take the mid-term exam during the assigned day and time. I do not offer make-up exams nor extra credit assignments at the end of the semester.

*Participation in Class Discussions/Article Summaries/News Articles (Current Events):* Students are expected to attend every class, read the assigned articles prior to class, and come prepared to discuss/debate the readings. The participation grade for students who miss classes, arrive late, and/or come to class unprepared will be marked down accordingly. Class discussion of specific articles will focus on: what is the research question(s); why is the research question(s) important/timely; why is the research question(s) difficult to answer; how do the authors attempt to answer the question(s), including a review of data and methods; what are the results; and what are the implications of the

results for health policy.

For the last 15 minutes of class on most Thursdays, students will describe current events related to the topic of the week. These impromptu presentations will begin during the second week of class. The news articles must be related to the topic of the week, and must have been published within the prior three months in a major media outlet (e.g., The New York Times, The Washington Post, The Economist, Business Week, Huffington Post, etc.). No less than two and no more than four students each week will be randomly selected to briefly summarize their articles and lead a short discussion emphasizing how the article relates to the health policy concepts being discussed that week. To receive credit for the news articles, files must be uploaded to Blackboard (Discussion Board) no later than 3:00pm each Thursday.

The article summaries for each assigned article must be completed and printed prior to the start of class on the day the article is being discussed. Please do not ask a classmate to submit your article summary as this will result in a zero grade for both students. Article summaries should be a minimum of one single-spaced typed page and must be printed prior to the start of class. The article summaries will be collected at the end of each class and then graded on a pass/fail scale. Posted news articles will also be graded on a pass/fail scale.

Please note that the grading for class participation, article summaries, and news articles (current events) are all lumped into one category, which is worth 40% of your final grade. Performance in all three areas matters and poor performance in even a single area can significantly drop your overall grade. Please come to class prepared, professionally engage your classmates, demonstrate your understanding of the topics through the article summaries and current events, and provide interesting insight with your contributions.

### **Attendance Policy**

Students are expected to arrive in the classroom at least 5 minutes before the start of each class and to attend all sessions. Unexcused late arrivals or absences will result in a lower final grade. Unavoidable absences (medical emergencies, family emergencies, athletic events, etc.) should be confirmed with the professor no later than one day prior to the class time. The University of Miami is moving to a “no electronics in classroom” policy. All cell phones, computers, and other electronic devices must be TURNED OFF during class time unless prior approval for exceptional circumstances is obtained from the instructor. Emailing, texting, Facebooking, Skyping, tweeting, electronic surfing, and other forms of non-classroom communication are strictly forbidden. Each student is entitled to one warning and thereafter will receive no credit for participation on that day. It will be very difficult to obtain a passing grade if you are not able to attend at least 80 percent of the contact time.

### **Honor Code**

I expect you to abide by the University of Miami Undergraduate Honor Code. You can find it on the web ([https://umshare.miami.edu/web/wda/deanstudents/pdf/undergrad\\_honorcode.pdf](https://umshare.miami.edu/web/wda/deanstudents/pdf/undergrad_honorcode.pdf)).

### **Testing Accommodations**

Anyone using the testing services of the Office of Disability Services ([http://www.miami.edu/index.php/academic\\_resource\\_center/disability\\_services/](http://www.miami.edu/index.php/academic_resource_center/disability_services/)) must schedule appointments at least 1 week prior to the mid-term exam, and preferably earlier. The spaces fill up quickly.

### **Professor Bio**

Dr. French ([www.mtfrench.com](http://www.mtfrench.com)) is a health economist and Professor (joint tenure) in the Department of Sociology ([www.as.miami.edu/sociology/people/faculty/michael-t-french](http://www.as.miami.edu/sociology/people/faculty/michael-t-french)) and Department of Health Management and Policy (<https://www.bus.miami.edu/thought-leadership/faculty/health-sector/french.html>) at the University of Miami, with secondary appointments in the Department of Economics and Department of Public Health Sciences. He is also Director of the Health Economics Research Group in the College of Arts and Sciences, Research Director of the Health Management and Policy Program in the School of Business Administration, and a Senior Fellow of the Center for Health Management and Policy (<https://www.bus.miami.edu/thought-leadership/academic-departments/health-sector-management-and-policy/index.html>). His research interests and experience includes health economics, health policy, program evaluation, substance abuse research, alternative health care delivery systems, pharmaco-economics, human resource economics, and the economics of crime. He has been principal investigator or project leader on numerous research grants with the National Institutes of Health, the Robert Wood Johnson Foundation, and several state agencies. He is currently editor of the *Journal of Mental Health Policy and Economics*; on the editorial boards for *Health Services Research, Evaluation and Program Planning*, and *Journal of Substance Abuse Treatment*; and serves on several research advisory boards for universities, national and international companies, government agencies, and health care organizations. Dr. French has published over 190 peer-reviewed scholarly articles in a variety of multidisciplinary professional journals including *Addiction, Addictive Behaviors, Alcoholism: Clinical and Experimental Research, American Journal of Drug and Alcohol Abuse, American Journal of Health Promotion, American Journal of Public Health, Anesthesiology, Annals of Emergency Medicine, Applied Economics, Benefits Quarterly, BMC Psychiatry, Cancer Practice, Contemporary Economic Policy, Criminology, Drug and Alcohol Dependence, Eastern Economic Journal, Economic Inquiry, Economics of Education Review, Economics and Human Biology, Employee Assistance Quarterly, Evaluation and the Health Professions, Evaluation and Program Planning, Evaluation Review, Health Economics, Health Services Research, Human Relations, Implementation Science, Industrial Marketing Management, Industrial Relations, Journal of Addictive Diseases, Journal of Adolescent Health, Journal of the American Board of Family Medicine, Journal of Behavioral Health Services and Research, Journal of Employee Assistance Research, Journal of Experimental Criminology, Journal of Health Economics, Journal of Healthcare Finance, Journal of Health and Social Behavior, Journal of Health and Social Policy, Journal of Human Resources, Journal of Internal Medicine, Journal of Maintenance in the Addictions, Journal of Mental Health Policy and Economics, Journal of Occupational Health Psychology, Journal of Occupational Medicine, Journal of Offender Rehabilitation, Journal of Public Health Policy, Journal of Quantitative Criminology, Journal of Research on Adolescence, Journal of Risk and Uncertainty, Journal of Studies on Alcohol and Drugs, Journal of Substance Abuse Treatment, Journal of Youth and Adolescence, Labour Economics, Justice Quarterly, LABOUR: Review of Labour Economics and Industrial Relations, Law and Policy, Medical Care, Medical Care Research and Review, Monthly Labor Review, Population Health Management, Public Health Reports, Risk Analysis, Social Science and Medicine, Social Science Quarterly, Social Science Research, Sociological Inquiry, Substance Abuse, Substance Use and Misuse, Southern Economic Journal, Telemedicine and e-Health, The Gerontologist, and The Prison Journal.*
