The applicable title must precede each section and each page is to be numbered at the bottom. Only proposals conforming to this format will be accepted.

Proposal examples can be found under “Helpful Tips and Examples.”

HELPFUL TIPS AND EXAMPLES

A. General Considerations and Notes:

1. These proposal guidelines are general and illustrative. They may vary depending on the particular type of proposal being submitted and additional information may be requested throughout the approval process.

2. It is helpful for schools and colleges to consult informally with the General Welfare Committee (GWC) and/or Faulty Senate Officers prior to making a formal presentation.

3. It is also often helpful if, at an early stage, informal consultations are held with the Faculty Senate Office. A pre-proposal discussion with the Senate Chair or the General Welfare Committee (GWC) may be advised, particularly if the proposal is complex or may involve some controversy.

4. The amount of detail required for proposals will depend on the context. For example, more detail is required for a proposal for a new degree than for a major, and less yet is required for a new minor.

5. Although the Faculty Senate Office requires all proposals to be submitted with a memo or approval as noted under the “How to Submit” section of this document, this requirement is not meant to provide the relevant faculty with veto power over proposals. The Faculty Senate Office is simply seeking a letter expressing the relevant faculty’s views on the proposals.

6. The Senate strongly prefers to see letters of support from Deans, Department Chairs, or heads of other units that might be affected. This does not mean that other units have a veto over new units or programs. Nevertheless, avoiding pointless overlap and confusing unit and program names is a consistent Senate concern, which is largely alleviated by such support letters.

7. It is recommended and courteous to consult informally with the GWC member for the unit representing the proposal, prior to the proposal coming before the GWC, so that they are aware of the major points of the proposal should any questions arise in Executive Session.

8. When a proposal is a major one, it is often helpful, particularly for a presentation to the Senate itself, if the presenters are the Dean and the most directly involved faculty member (proponent).

9. As all legislation is posted to the internet, if CVs are included in a proposal, please ensure that any personally-identifiable information (PII) is removed. This includes home address, home phone number, personal email address, social security number, date of birth, driver’s license number, or visa information.

10. In addition to Faculty Senate action, some of these actions require the formal approval of SACSCOC (obtained through the Office of Assessment and Accreditation (OAA)) or the Academic Deans Policy Council (ADPC). Please contact the Senate Office for assistance.
